

Life's Corner Spring 2011

Newsletter for
Christians for Life, Inc.

Spring in Kansas always transforms the bleak days of winter into the hopeful days of new life and spectacular color. The unfolding labor of love at the Heart of America Memorial Wall for the Unborn also has brought hope and healing to our city and state.

Its simple beauty has brought restoration, health, peace and comfort to many; and will continue go do so. With each new improvement comes the assurance that the Father is pleased with what is transpiring there.

The first phase is almost complete. The stone pillars and fence have wrapped it up like a package. The entry way invites all to rest, reflect and be restored.

Every step of the way God has provided the funds, the energy and determination to see it completed for His glory.

One of the most unique things about Christians for Life is the way the Lord Jesus has drawn the board of directors together from many different churches. Because of their insight, love, compassion, unity, determination and dedication to this

ministry it has become a reality.

Our founder and director, Barbara Saldivar.

Report on fund raiser

Thank you to all who supported our Fund raiser on May 14th. We had a pancake feed and a silent auction. Many of you donated pieces of art and other items to make the silent auction a success. It was a busy weekend because of graduations and pre-planned events at some churches. Even so, the Lord blessed our time together. We are especially grateful for the new acquaintances made. The event increased our financial base and, of course, we are so thankful for that.

At the time of this article, another women's group is planning on coming to visit the memorial after they complete a Post-Abortion Bible study. Please continue to pray that more and more churches will provide this type of ministry to their congregations. If your congregation has not thought of this important ministry, please think about bringing the need to your pastor or whoever has the authority to attend to such matters. We live in a post-abortion society and we all need healing from all the losses we have had from abortion, miscarriage, and stillbirth. God Bless you as you consider this part of our report.
