2014 parts CFL's Eleventh Anniversary!

We have all heard the phrase, "Where does time go, or time sure flies." For us at CFL the last eleven years have seen dramatic changes in the Heart of America Wall for the Unborn at 1216 SE Republican in Topeka.

For those of us on the board of directors it has been an amazing journey! When Barbara Saldivar founded CFL we had a vision and a purpose; and that was about all. But God began working!

First: Evelyn Ibrahim donated a piece of ground.

Second: A Board of Directors was formed.

Third: Clean up of the ground was next and required a lot of man power and endurance.

Forth: We hammered out a constitution and elected officers.

Fifth: We began sending out a newsletter.

Sixth: We had a city wide rally with Star Parker.

Seventh: We began contacting churches and individuals to support our healing ministry.

(That was probably the most time consuming.)

But finally after about four years we were able to place our first monument on the property. **That was an exciting day!!** Looking back on it now. It looked so alone there. No grass, no flowers, no fence, no benches, no sidewalks and needing more finances to proceed.

But, our Lord was so faithful! Today the Heart of America Memorial for the Unborn is a spectacular and beautiful garden.

We have held many individual or group memorials. We have seen many families healed and restored thorough the memorial. Was it worth it????? Oh, Yes!!! Every time we are together there we all pinch ourselves as we relive the last

eleven years; and we rarely leave there without a few tears being shed. Tears of gratefulness to our Mighty God who honored our prayers for a healing place. Glory to His name.

HAPPY ANNIVERSARY TO
US!

The National Day of Remembrance for Aborted Children

Two years ago in September CFL joined with many around our nation to honor the lives of over 55 million aborted children. This event will be annually and is a time when we can join hands and hearts with the rest of the nation to remember the loss of these innocent lives.
